

Gesundheitszentrum radofine
für Schwangerschaft, Geburt und Elternzeit

Do you
need help?

Welcome to our website – You are pregnant and have many questions?

We support and accompany expectant mothers and families from the beginning of pregnancy to the end of breastfeeding with individual and professional care, with information, courses and further education.

You can find a midwife to accompany you during your pregnancy and in the postpartum period by using the **midwife search** or our **online consultation**. Midwifery assistance is regulated by law within the framework of maternity guidelines and is free of charge for you. **Please make an appointment.**

In the heart of Radolfzell we have created a place in the HGZ (midwife-led health center) radofine where medical care, lively exchange and mutual support take place.

OUR OFFICE HOURS

Monday to Friday 9.00 to 12.00 Uhr

Phone +49 151 111 299 61

Email kontakt@hgz-radolfzell.de

For information and immediate help you will find detailed information **here**. This offer was created by the German Federal Ministry for Family Affairs, Senior Citizens, Women and Youth.
